

INTERNATIONAL WIRELESS SERVICE

Thank you for requesting information on international wireless service. Attached please find detailed information on the two available programs, a summary of which is below:

OPTION A *(available in most areas throughout the USA)*

A USA based phone number with a USA rate plan. **Your local USA based phone number will follow you throughout the USA and in most of the rest of the world.** Depending on the area you live in, you may be able to use the same phone both domestically and internationally (ask us). Otherwise you will have 2 phones, one for the USA and one for overseas, each with the same phone number.

OPTION B

Option B is the service we recommend. You will receive an overseas phone number that will follow you throughout the world (including the USA). **Airtime rates are less expensive with this option, and there is no monthly fee.** Additionally, a credit check is not required and service can be set up immediately (whereas Option A takes at least 48 hours). You will have one phone and one phone number for use worldwide.

Kindly review the attached information and let us know what questions you have. If you chose "Option A" it takes up to 5 business days to set up, so keep this in mind if you are a procrastinator!

Best regards,

You prepay for your service in any amount you designate. You can check your remaining time from your phone any time you like. When your time runs low (less than 10 minutes remaining), you will be notified to recharge your card. This service is easy to setup, very reliable, and we can provide you with your Swiss phone number as soon as you order the phone.

Notes:

- Your mobile number remains active for 12 months from the date of your last recharge. If you do not use all of your time within that 12 month period, or do not recharge your card within 12 months of the date of the last recharge, you lose any remaining time and risk loosing your mobile number.
- The air time rates quoted below are apply in 99% of the time. In some rare cases, certain network operators may add additional charges which will slightly raise your effective per minute cost.
- When trying to reach you, USA callers pay international Long distance rates to Switzerland, (approximately \$.08 - \$.32 per minute depending on their long distance calling plan).

Costs:

Setup fee	\$99
Annual fee	\$0
Monthly fee	\$0
Airtime -	\$1.61/minute to make a call from anywhere in the world to anywhere in the world \$.80/minute to receive a call
